

TO : Chief, Security Research Staff

A/B VII, 9, 1

SUBJECT: Attached

1. The attached package contains ten, six separate boxes of JSD-25 purchased by [redacted] via contacts for the ADT-4000 program with (b) confidential funds. Also attached is a cancelled personal check of [redacted] in the amount of [redacted] which establishes purchase through [redacted] cleared (b) contact at the [redacted]

2. The writer is forwarding this material to you with the thought that you may wish to show it to [redacted] [redacted] who have supported ADT-4000 activities for a long time. It is interesting to note that the material is tasteless, odorless and capable of easily being concealed in any common liquid, hot or cold. It is, as you know, extremely powerful. One hundred grams or 100/1,000,000 of a gram would be a heavy dose and this amount in a crystalline state could easily rest on the head of a pin. Sufficient to say that the amount contained in the attached box would probably produce serious injuries for periods of eight to sixteen hours and possibly longer for all Security Officers [redacted] The writer, however, does not recommend testing in the Christmas rush. It is usually present at Christmas office parties.
